

All-in-One Banking, Payments, Cards & Crypto Software Platform

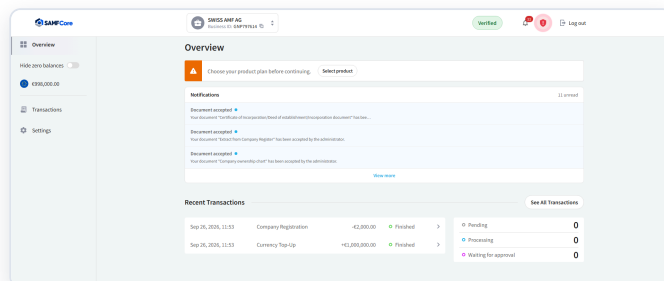

For banks, EMIs, fintechs, payment companies and BaaS providers.

SAMFCore combines native account-balance management and transaction accounting with banking, payments, cards and digital-asset workflows for individual and corporate customers.

WHAT SAMFCORE ENABLES

- Accounts, Balances & Transactions
- Crypto & Digital Assets
- Instant Money Transfer
- KYC / KYB
- CRM & Back Office
- Payments
- Cards
- Multi-Currency Exchange
- AML & Compliance
- APIs & Integrations

Multi-currency accounts, transaction accounting, financial transaction recording, internal transfers, fees, FX workflows and complete transaction history.

Real SAMFCore business account overview.

WHY SAMFCORE

Perpetual Licensing

Permanent usage rights within the licensed scope.

Full Source Code Available

Maintain and develop your licensed deployment with your own team or appointed developers.

Customer-Controlled Deployment

Run SAMFCore on infrastructure you control.

Provider-Independent Architecture

Connect banking, payment, card, KYC/KYB, AML, custody and other providers selected for your deployment, subject to technical compatibility and integration scope.

Progressive Cutover Migration

Move in controlled stages — included with Enterprise Global within agreed scope.

Go Live Faster

Ready-built software shortens the technology build phase; timing depends on configuration, providers and implementation.

No per-transaction software fees. No transaction-revenue share. Across all SAMFCore licensing models; third-party fees remain separate. No per-end-customer software charge under applicable perpetual scope.

Development & Operational History

Development began in 2018 in cooperation with a Swiss software development firm. In operational use since 2021.

Independent Swiss Legal Opinion

A legal opinion may be made available to qualified prospective buyers during advanced due diligence, subject to confidentiality and the terms of the opinion.
